The Regional Transportation Fund 280 has a total balance of \$2,411,582.65. Of that total, the City's balance is \$523,296.28 and the County's balance is \$1,888,286.37. The County has an encumbrance of \$150,000.00, leaving an available total fund balance of \$2,261,582.65.

The Public Transit Fund 395 reflects an increase of 21.54% over the same period last year. Comptroller Sherry Wideman reminded the Board that the data was currently skewed. Road Supervisor Gary Fowkes asked whether the data would no longer be skewed by the end of the year. Comptroller Sherry Wideman responded that there will be a "true up" process at the end of the year. The County Manager questioned whether the Comptroller's Office had returned to the previous reporting method, to which Comptroller Sherry Wideman responded that they had not and would continue using the new software system. Road Supervisor Gary Fowkes noted that it looked like when averaged over the next several months, the figures would likely become more comparable to the previous year's data. Comptroller Sherry Wideman also addressed Road Supervisor Gary Fowkes' question regarding why some months appeared significantly higher than others, explaining that, based on her research, the fluctuation was related to transfer tax.

The One-Cent Fund, which provides a clearer picture of gasoline tax revenue excluding diesel, shows a decrease of 3.99% compared to the prior year.

The gallonage report indicates that 767,781 gallons of gasoline and 660,652 gallons of diesel were sold during February 2026.
